

FAASTeam presents:

# **CFI Workshop #8 topics: Pilot Deviations and Runway Incursions**

FAAsteam CFI workshops provide an opportunity for Flight Instructors, Designated Pilot Examiners, and Aviation Safety Inspectors to meet and review FAAsteam designated core topics as well as safety topics of local interest. This is workshop #8, the final workshop, in a series of 8 workshops and will cover the core topic of Pilot Deviations and Runway Incursions. To help instructors prepare pilots for the recently added tasks on SRM in the Private and Commercial PTS, an added local topic will be Teaching and Evaluating SRM.

**Directions:** Hwy 101 North or South to Airport Blvd. Go west on Airport Blvd, turn right on Skylane Blvd, second right into Sonoma County Office of Education (SCOE). Follow signs in building to meeting room.

**A message from the National FAAsteam Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
